LEVEL DESCRIPTIONS

LEVEL 0 — NOT YET STARTED

The organisation does not have a plan and has not started investigating options for action under the relevant criteria.

LEVEL 1 — GETTING STARTED

The organisation is developing a plan or is investigating options for action under that criteria (e.g. agreeing on goals and targets).

LEVEL 2 — GOOD PROGRESS

There are documented procedures in place (e.g. to implement the Sustainable Packaging Guidelines) or some progress has been achieved, data tracking shows up to 20% of products have achieved the desired outcome.

LEVEL 3 — ADVANCED

The organisation has specific, measurable targets in place, or data tracking shows that >20% of products have achieved the desired outcome.

LEVEL 4 — LEADING

The organisation has more rigorous procedures in place, or an ambitious target has been met e.g. >50% of products have achieved the desired outcome.

LEVEL 5 — BEYOND BEST PRACTICE

The organisation has more rigorous procedures in place, or an ambitious target has been met e.g. 100% of products have achieved the desired outcome.

ABOUT THE APCO FRAMEWORK

The APCO Packaging Sustainability Framework (the Framework) aims to provide a consistent and transparent framework for assessing and tracking packaging sustainability across organisations. The Framework consists of thirteen independent criteria that belong to three separate categories. These categories are (i) Leadership, (ii) Packaging Outcomes and (iii) Operations. The diagram above shows the different criteria included within each of these three categories.

There are two types of criteria within the Framework:

- **Core criteria** are mandatory and must be answered by all Members when completing the Annual Reporting Tool.
- **Recommended criteria** are not mandatory, but Members are encouraged to complete as many recommended criteria as possible.

Each criteria is divided into five levels of performance ranging from 'getting started' to 'beyond best practice'. The Reporting Tool assigns a performance level to each criteria and overall performance levels / scores based on your organisation's responses. The diagram above illustrates the key differences between performance levels. Please see www.packagingcovenant.org.au for more information.

ABOUT APCO

APCO is a co-regulatory, not for profit organisation that partners with government and industry to reduce the harmful impact of packaging on the Australian environment. APCO promotes sustainable design and recycling initiatives, waste to landfill reduction activities and circular economy projects.

APCO annual reporting is a key Membership activity, providing Member organisations with a transparent method to track their packaging sustainability performance. Annual reporting also supplies APCO with valuable data and information to identify industry trends and advancements.

Criteria 1.1 PACKAGING SUSTAINABILITY STRATEGY

Good Progress

Your organisation has: (1) A strategy in place that commits your organisation to improve packaging sustainability.(2) integrated its strategy into business policies and processes.

Advanced

Look for opportunities to: (1) make targets that are specific, measurable and time-based.(2) publicly report progress towards packaging sustainability.(3) ensure you have a documented process.

Criteria 1.2 CLOSED LOOP COLLABORATION

Leading

Your organisation is a member of a closed loop collaboration and there is a process for measuring and monitoring performance.

Beyond Best Practice

Consider introducing a formal process to continually identify new opportunities for collaboration or to improve existing initiatives. The process may be documented internally within your organisation, or within the organisation responsible for managing the closed loop initiative.

Criteria 2.2 PACKAGING MATERIAL EFFICIENCY

Not Started

Your organisation has not yet taken any action to meet packaging sustainability requirements under this criteria.

Getting Started

Develop a plan to optimise material efficiency. The plan should be documented, e.g. in your packaging sustainability strategy. At a minimum this should apply to packaging of products that your company controls, i.e. your own brand product and/or business-to-business packaging.

Criteria 2.3 RECYCLED AND RENEWABLE MATERIALS

Getting Started

Your organisation is investigating opportunities to optimise the use of recycled or renewable materials in packaging.

Good Progress

Establish a database to track recycled or renewable content in packaging. Aim to have data showing that up to 20% of products have packaging that incorporates some recycled or renewable content or recycled and renewable content has been optimised.

Criteria 2.4 POST-CONSUMER RECOVERY

Beyond Best Practice

You have data showing that 100% of products have packaging that can be recovered through existing post-consumer recovery systems and these systems achieve the highest potential environmental value.

Beyond Best Practice

Your organisation has achieved the highest level possible within the Annual Reporting Tool for this criteria. For your organisation to maintain this level of performance, your organisation will need to show you are continuously looking for improvement opportunities, with supporting evidence.

Criteria 3.1 BUSINESS TO BUSINESS PACKAGING

Getting Started

Your organisation has developed a plan or is investigating opportunities to reduce the amount of single-use business-to-business (B2B) packaging you use internally or send to business customers. This can be achieved, for example, by improving efficiency or introducing reusable packaging.

Good Progress

Establish a database to track your business-to-business (B2B) packaging. Aim to have data showing up to a 20% reduction in consumption of single-use B2B packaging, or up to 20% of B2B packaging has been optimised for efficiency and reuse.

Criteria 3.2 ON-SITE WASTE DIVERSION

Getting Started

Your organisation is investigating opportunities to divert solid waste generated at its facilities (factories, warehouses, offices, retail stores etc.) from landfill.

Good Progress

Investigate opportunities to divert more of the solid waste generated at your facilities from landfill, e.g. by replacing non-recyclable packaging with reusable or recyclable packaging, or by finding recycling solutions for more of your waste.

Criteria 3.3 SUPPLY CHAIN INFLUENCE

NEXT STEPS

This Performance Summary shows your organisation's performance against the APCO Packaging Sustainability Framework. The scores have been calculated by the Annual Reporting Tool based on the responses you provided. A full explanation is available on the the Annual Reporting Tool website under the Information section. See www.australianpackagingassessment.com.au.

Complementary to this Performance Summary, two additional reports will be produced:

ANNUAL REPORT AND ACTION PLAN: This will be your public facing document, combining your organisation's annual reporting results and new action plan targets to document progress towards the APCO Packaging Sustainability Framework criteria.

BENCHMARKING REPORT: This is a tailored report that will be made available when all APCO Members have submitted their annual reports. The Benchmarking Report will enable you to compare your organisation's performance against other APCO Members.
